Important notes

While studying in New Zealand, having medical insurance is essential. It not only meets visa requirements but also protects you against unexpected health issues and medical expenses. With adequate insurance, you can access the care you need without facing significant financial stress—allowing you to concentrate on your studies and settle into your new environment with peace of mind.

We work with UniCare, but there are other providers that offer insurance to international students. You are encouraged to explore the options available to find coverage that best suits your needs
